NETWORKING AND SURVEILLANCE

Our Company recommends and utilizes the Omada and Vigi Unified Networking and Surveillance Solutions, which are renowned for their reliability and comprehensive features.

These two solutions provide **seamless connectivity and robust security**, ensuring that our clients can monitor and manage their networks with ease. Together they provide the complete solution for a company's security and networking needs.

Omada offers advanced wireless networking capabilities that cater to various business needs, while Vigi provides state-of-the-art surveillance technology that enhances safety and peace of mind.

THE CURATOR OFFICE DESKTOP CUSTOM PC

Specifications:

1. Intel Ultra 5 225/Ultra 7 265k
2. B860M Motherboard
3. Cooler
4. Ram 32GB
5. Small form factor Wood PC case
6. 1TB NVME SSD
7. Bronze 650 w PSU

Peripherals

1. Linear wireless keyboard (thocky switch)
2. High Performance wireless mouse
3. 2k 27" High refresh rate monitor with adjustable stand

Rationale: Ultra 5 225 for super cpu performance at a low price, 32GB of ram included for all office multitasking needs. Monitor with an adjustable stand is always better than non adjustable monitor.

GPU can be added for 3d modelling/video editing/AI purposes. Up to **RTX 5070ti** supported based on PSU.

NVIDIA DGX SHOWCASE

The advertisement features a central image of the ASUS Ascent GX10 AI Supercomputer, a compact, white, rectangular device sitting on a wooden desk. A glowing blue wireframe box surrounds the device, with the text "1 petaFLOP of AI performance" inside. In the background, a computer monitor displays a 3D wireframe model of a human head. The ASUS logo is in the top right corner. Below the main headline, there is a bulleted list of features. At the bottom left, it says "Accelerated by NVIDIA".

ASUS

Based on NVIDIA DGX™ Spark
ASUS Ascent GX10 AI Supercomputer

Compact, Powerful and Scalable

1 petaFLOP
of AI performance

- **NVIDIA GB10** Grace Blackwell Superchip for next-gen AI performance
- Up to **1 petaFLOP** of AI performance for demanding workloads
- **128 GB** LPDDR5x Coherent Unified System Memory
- **NVIDIA ConnectX-7** connects two ASUS Ascent GX10 systems to work with larger models
- **NVIDIA AI Software Stack** supports AI development and deployment

Accelerated by  **NVIDIA**

Power up your AI workloads with the SUPER efficient NVIDIA DGX Spark mini AI supercomputer with a whopping 128GB of GDDR5X memory today!
